The printing process may cause colour deviations. Statements on compulsory, legal and fiscal regulations and implications are only valid for the Federal Republic of Germany. Therefore, please ask your contact at Kässbohrer Geländefahrzeug AG for the final status. Printed in Germany.
BEACHTECH 5500
THE SELF-PROPELLED BEACH CLEANER

The BeachTech 5500 is particularly maneuverable thanks to its 3-wheel design. The cleaning system guides the sand over a vibrating screen by means of a conveyor system until the sand is screened, which cleans a clean beach – no matter whether it is wet or dry. Thanks to its high-performance turbo diesel engine, a propulsed drive with three hydraulically actuated wheels which ensures optimum power transmission, as well as its low-pressure tires, the BeachTech 5500 can be used on various beaches and locations with extreme versatility.

Large collecting hopper
- Load volume and a flexible unloading height
- The compact collecting hopper has a load volume of 1.5 m³ and a flexible unloading height of 0 to 2,600 mm.

Safety features
- The BeachTech 5500 is equipped with extensive safety devices.

1-person cab
- Convenient operation
- Joystick, digital operation and control panel and 2 operation-related screens / camera systems for monitoring.

Regulated design
- Various application options
- Thanks to its regulated design, the BeachTech 5500 can easily be used on difficult beaches and off the beach (e. g. for clean water filtration retention ponds, collect stones, etc.)

15,525 mm
- Length
- 2,800 mm
- Working width
- 2,420 mm
- Height
- 4,550 kg
- Net weight
- ≤ 5,600 kg
- Gross weight limit
- 15 km/h
- Max. driving speed
- ≤ 15 cm
- Working depth
- 1.5 m³
- Capacity of collecting hopper
- 74 HP
- Torque max.
- 2,400 rpm
- Power output
- EU Level III B; EPA Tier 4F
- Exhaust emission standard
- Deutz
- Type
- 4 cylinders
- Displacement
- 2,925 cm³
- Power output
- 55 kW
- Torque max.

NEW
- These are the features of the BeachTech 5500:
  - High area coverage
  - Large collecting hopper
  - Particularly maneuverable thanks to its 3-wheel design
  - Air conditioning
  - Low maintenance effort
  - Regulated design
  - Safety features (CE certified)
  - 1-person cab
  - New software and control
  - State-of-the-art engine

A NEW look at the BeachTech 5500
- Area coverage
- A new working width of 1,524 mm and a large collecting hopper, the BeachTech 5500 achieves high area coverages.

Particularly maneuverable thanks to its 3-wheel design

Low maintenance effort
- With only three bearings, a hydraulic drive, a galvanized cleaning unit and a transport system and whose wear parts are reinforced with carbide, the cleaning unit requires very little maintenance.

Rugged design
- Various application options

Large collecting hopper
- Load volume and a flexible unloading height
- The compact collecting hopper has a load volume of 1.5 m³ and a flexible unloading height of 0 to 2,600 mm.
