IT’S HERE
BEACHTECH 2500 – THE NEW GENERATION
Our all-round talent, the BeachTech 2800, has been given a thorough general inspection. The BeachTech team has surveyed the customers and listened carefully to, and analyzed, their feedback.

In implementing the design, the engineers made it a point to concentrate on the inner values. A few resounding improvements were the result.
Shaft flanges reliably prevent jammed rocks according to local traffic regulations depending on nature of the ground. Optional road licensing, according to local traffic regulations, possible.

* according to local traffic regulations
** depending on nature of the ground
Optional road licensing, according to local traffic regulations, possible.

REMOTE CONTROL
- Simplified handling: only 1 dual-action circuit of the auxiliary tractor hydraulics (in standard operation)
- Improved operation: easy to understand, clearly assigned functions

**EASIER HANDLING**
- Improved sealing to protect against outside influences

**REMOTE CONTROL**
- Improved screening belt guidance: through drive wheels

**Pick-up engine**
- Improved sealing to protect against outside influences

**REMOTE CONTROL**
- Improved screening belt guidance: through drive wheels

**Pick-up engine**
- Improved sealing to protect against outside influences

**REMOTE CONTROL**
- Improved screening belt guidance: through drive wheels

**Pick-up engine**
- Improved sealing to protect against outside influences
This company is ISO 14001 and ISO 9001 certified.
