BeachTech[®]
professional beach cleaning

BeachTech *Sweepy* with mechanical drive:

The alternative - robust, simple, low-priced

The walk-behind BeachTech machine for cleaning small beach sections, i. e. between sun chairs etc. Also suitable for cleaning playgrounds, beach volleyball courts and other sandy areas.

This model with mechanical 3 gear drive also stands for straightforward operation. It is the „light version“ for smaller budgets.

Technology

Two shaking screens working in opposite directions, keep the vibrations at a minimum. Deep cleaning of dry sand is possible and even wet sand will be cleaned effectively. Cigarette butts, glass shards, pieces of wood, beverage cans, pebbles and much more will be collected. The BeachTech *Sweepy* can turn on the spot, when the opposite levers for forward and reverse gear are used at the same time.

The deep-set gravity center and stable construction guarantee professional cleaning results even under harsh conditions. The BeachTech *Sweepy* is a reliable, low-wear machine which requires minimal maintenance.

Add-on equipment

From the beach into the park, due to its modular quick-change system, this compact beach cleaning machine is a truly multifunctional tool. Just a few easy steps and in not time at all it can be used as a road sweeper, leaf vacuum, snow blower etc. The BeachTech *Sweepy* is much more than a beach cleaner and is perfect for multiple uses, even if you are not located near the beach! This makes the BeachTech *Sweepy* efficient and economic and a great choice to accomplish multiple tasks.

Technical data

Maximum operating width:	1,050 mm
Maximum surface cleaning capacity:	4,200 m ² /h
Operating depth up to:	120 mm
Length of vehicle:	2,550 mm
Width of vehicle:	1,195 mm
Height of vehicle (adjustable):	from approx. 1,000 to 1,600 mm
Engine:	9.1 HP / 6.7 kW 4-stroke gasoline engine with air cooling
